Surgical Spear

(For use in absorbing and removing fluids during ophthalmic and other microsurgical procedures)

INSTRUCTIONS FOR USE

CAUTION

- Sterile. This product is for Single Use Only; do not re-sterilize. Re-use can result in microbial contamination causing subsequent health deterioration of the patient. FABCO will not be responsible for any product that has been re-sterilized or re-used.
- Do not use if individual packaging is damaged or opened. As long as the individual package is not opened, damaged or beyond its expiration date, the product is sterile. Use proper aseptic techniques in all phases of handling.
- Do not cut sponges in close proximity to the surgical procedure; fragments without x-ray detectable abilities may enter the patient's wound site. Failure to remove sponge fragments from the patient may result in a foreign body reaction.
